3 ADVANCED

Level 3 will not be offered this session. The Advanced course will be incorporated into future schedules.

SpanishPRO is an innovative system for learning vocational Spanish-like a PRO!

Employees who can perform in both English and Spanish are in great demand. SpanishPRO's flexible curriculum emphasizes a more meaningful approach to language acquisition that is both affordable and immediately applicable to the job.

How does SpanishPRO work?

There are 3 levels of SpanishPRO each composed of 40 hours of class time. SpanishPRO is an immersion program that focuses on the conversational aspect of the language. It is designed using adult learning theory principles and, as such, it is very interactive and hands-on, paying particular attention to the situations and terminology relevant to the workplace.
